Vehicle:	2012 Honda Civic
VIN:	CVT1FXMJ2PTPF8214
License plate:	8-63266
Reported injury:	wrist fracture

Description of the accident (claimant's words)

I was driving south on the main road and entered the intersection on a green light when a pickup truck coming from my right ran the red signal and struck the passenger side of my vehicle. I braked as hard as I could, but the impact was unavoidable. My car spun partway around and came to rest against the curb. The airbags deployed, and I was unable to move my left arm for several minutes afterward. Bystanders called for help, and an ambulance transported me to the nearest hospital, where X-rays showed a farcture in my left wrist. I have since been placed in a cast and am attending follow-up appointments with an orthopedic specialist. I did not see the other driver's face clearly before the collision, but the truck's signal was clearly red when it entered my lane. I am providing this account so that the claim can be processed accurately.
