Description of the accident (claimant's words)

I was driving home on a weekday evening, moving slowly through a busy intersection in Houston, Texas, when the car in front of me stopped suddenly. I braked, but the vehicle coming toward me in the opposite lane swerved into my path, and we collided head-on at low speed. Neither car was traveling fast, and both airbags stayed closed, but the impact jolted my body forward and back. Within an hour I noticed stiffness and a dull ache in my neck and upper shoulders, and by the next morning I had trouble turning my head and was experiencing headaches. I was diagnosed with whiplash and have been attending physical therapy since then. I am providing this statement so that the injuries and the circumstances of the collision are accurately recorded for my claim.
