Claim Notes

Claim number:	C-1017
Claimant:	Matthew Watkins
Adjuster:	Jerry Hanson

03/04/2024 - Reviewed the first notice of loss. Insured reports a collision at an intersection while turning left. Other driver's vehicle struck the insured's rear quarter panel. Police report requested. Photos of both vehicles received and saved to file.

03/10/2024 - Spoke with the claimant by phone. Claimant confirms no attorney is retained and prefers to handle the claim directly. Claimant reports neck strain following the impact and is seeing a primary care provider. Explained the medical documentation needed to evaluate the bodily injury portion of the claim.

03/15/2024 - Obtained the recorded statement from the insured. Insured states the light had turned green for oncoming traffic and they were waiting for a gap before completing the left turn. Insured believes the other vehicle was approaching at speed. Wtiness information noted on the police report, to be followed up.

03/20/2024 - Received the claimant's treatment notes. Diagnosis listed as cervical strain with neck pain and limited range of motion. Treatment plan includes physical therapy sessions and a follow-up visit in four weeks. Medical records added to file for review. Liability still under evaluation pending police report and witness contact.

03/23/2024 - Sent the claimant a written summary of the coverage position and the next steps, including how to submit receipts for medical expenses and lost time from work. Claimant acknowledged receipt by phone and said they would send the records by the end of the week. File remains open and reserved for bodily injury and property damage.

Q: Thanks for taking the time to speak with me today. This recording is for the claim file. Can you state your full name for the record?

A: I'd rather just go by the claimant, if that's okay. It's the same thing, right?

Q: That works for the file. Can you walk me through what happened at the intersection?

A: I was turning left off the main road in Conroe, into the parking lot of a shopping center. There was a green light, but the arrow had turned, so I went when the oncoming lane looked clear. Then a car came through from the other direction and clipped the front corner of my vehicle.

Q: How fast would you estimate you were going when you started the turn?

A: Maybe ten or fifteen miles an hour. I was pretty slow because I was turning sharply.

Q: Did you see the other vheicle before the impact?

A: Not really. I glanced left, saw nothing close, and then there was a bang. I didn't have time to react.

Q: Were you injured?

A: My neck, mostly. It snapped forward and then back. I felt stiff right away, and by the next morning I had a dull ache across the shoulders and some trouble turning my head to check my blind spot.

Q: Have you seen a medical provider since the accident?

A: Yes, I went to urgent care and was told it looked like a neck strain. They gave me a muscle relaxer and told me to rest it and use ice.

Q: Are you still having symptoms?

A: Some. Mornings are the worst. Driving for longer stretches bothers it, and I've been taking it easier at work.

Q: Thank you. Is there anything else you think I should know about the accident?

A: No, I think that covers it. Thanks for being patient with me.
