| **Reported injury:** | wrist fracture |

### Description of the accident (claimant's words)

I was backing out of a parking space at the shopping center in Pearland, Texas, moving slowly with my mirrors checked. As I reversed, a silver SUV coming down the aisle struck the rear quarter panel of my vehicle. I had alerady stopped when the impact happened, and I did not see the other car approaching because a large delivery van was parked beside my space and blocked my view. The other driver stepped out right away and apologized, and we exchanged insurance information while a store employee watched. My car has visible damage to the rear bumper and passenger-side taillight. I was taken by ambulance to the emergency room after I felt sharp pain in my left wrist, and X-rays confirmed a fracture. I am still in a splint and am attending follow-up appointments with my doctor. I am submitting this statement to describe what happened as accurately as I can.
