Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1019
Claimant:	Louis White
Adjuster:	Darin Tyler

4-15-23 - Claim opened following a report of a low-speed collision in a parking lot. Insured vehicle was reversing out of a space when it made contact with the claimant's vehicle. Both drivers reported no visible damage beyond light scuffing at first, but the claimant later reported a wrist injury sustained when bracing against the steering wheel. Claimant has no attorney on file and is handling communications directly.

4-24-23 - Recorded a recorded statement from the claimant describing the incident. Claimant states she was seated in her vehicle waiting for the space to clear and felt a jolt. She reports pain and swelling in her left wrist and says she has been seen at an urgent care clinic. Requested medical authorization forms and explained the process for submitting bills and records.

5-3-23 - Obtained phtoos of both vehicles from the scene and the insured's account of the collision. Property damage appears limited to a cracked rear bumper cover on the claimant's vehicle and a small dent on the insured's front quarter panel. Parking lot surveillance footage requested from the property manager; response pending.

5-4-23 - Claimant contacted the office to report that imaging confirmed a fracture of the wrist and that she has been placed in a cast. She asked about the process for a medical payments claim and whether her out-of-pocket costs would be covered. Explained coverage options in geenral terms and advised that the bodily injury evaluation would proceed once the treatment plan is documented. Noted that she has not retained counsel and has not indicated a wish to do so.

5-5-23 - Received the claimant's medical records from the treating physician and the urgent care clinic. Records confirm a distal radius fracture and a treatment plan that includes immobilization and a follow-up appointment with an orthopedic specialist. Bodily injury file is being reviewed against the medical documentation. Will follow up with the claimant on the outstanding bills and the status of the property damage estimate.

Recorded Statement

Claim number:	C-1019
Statement of:	Louis White
Taken by:	Darin Tyler
Date:	4-17-23

Q: Thanks for taking the time to speak with me today. This recording is being made for the claim file. Can you please state your full name for the record?

A: Sure. I'm the claimant, and I'll just go by the policyholder's account on this one.

Q: That's fine, we'll keep it simple. Can you describe where the collision happened?

A: It was in a parking lot in League City, Texas, at a shopping center. I was pulling out of a parking space near the main entrance when the other vehicle backed out of the space across from me.

Q: Was your vehicle moving at the time of impact?

A: I had just started rolling, maybe a few miles an hour. I had already checked my mirror, but the other car came out faster than I expected.

Q: Did you see the other driver before the collision?

A: Not really. I saw a shape move, then I heard the impact. I hit the brakes but it was too late.

Q: Were you injured?

A: Yes. I threw my arm out to brace myself against the steering wheel and my wrist took most of the force. I was taken to urgent care, and they told me it was fractured. I'm wearing a splint now and I'm supposed to see a specialist next week.

Q: Did you have any passengers in your vehicle?

A: No, I was alone.

Q: Has a ploice report been filed?

A: Yes, an officer came to the scene and took information from both drivers. I can get you the report number.

Q: Thank you. Is there anything else you think I should know about the accident?

A: I just want to make sure my medical bills get covered. I've already missed a few days of work because I can't drive with this wrist.

Q: Understood. We'll follow up with you about the medical records and the claim. Thank you for your cooperation.

A: Thanks. I appreciate it.
