Description of the accident (claimant's words)

I was backing my silver sedan out of a parking space at a shopping center in League City, Texas, slowly, with my hazard lights off and my mirrors checked. As I reversed, a pickup truck coming down the aisle struck the rear passenger side of my car. I had not seen it approach because the view past my rear window was blocked by a tall delivery van parked beside me. I stopped immediately and turned off the engine. The other driver got out and apologized, and we exchanged insurance information while a store employee watched. My car sustained damage to the rear quarter panel and bumper. I felt a sharp pain in my left wrist when I caught myself on the steering wheel, and I went to an urgent care clinic later that afternoon, where an X-ray showed a fractured wrist. I am providing this account as an accurate description of what happened.
