Description of the accident (claimant's words)

I was driving home on a weekday evening, heading north on the main road in Pearland, Texas, when the car in front of me stopped suddenly at a light. I braked, but the vehicle coming from the opposite direction crossed into my lane and we collided head-on. Speeds were low, and both cars sustained front-end damage. Airbags deployed in my car. I did not lose consciousness at the scene, but I struck my head on the steering wheel and felt dizzy and nauseous. Paramedics arrived within minutes and checked me on site. Later that night I developed a severe headache, sensitivity to light, and confusion, and a doctor diagnosed me with a concussion. I have since been advised to rest from screens and avoid strenuous activity while I recover. I have stopped driving until cleared by my physician.
