Description of the accident (claimant's words)

I was sitting in the front passenger seat when our car was stopped at a red light on the main road in Conroe, Texas. We had been waiting only a few seconds when a vehicle behind us did not stop in time and struck us from the rear. The impact pushed my head back and then forward, and I felt a sharp pain in my neck and upper back almost immediately. The driver and I both got out to check on each other, and I remained at the scene until help arrived. Over the following hours the stiffness grew worse, and I have been unable to turn my head comfortably. A doctor has diagnosed me with whiplash and recommended rest, medication, and physical therapy. I am submitting this statement so that my medical costs and lost time from work can be considered under this claim.
