Description of the accident (claimant's words)

I was driving nroth on the main road toward the intersection when the light turned green and I proceeded through carefully. As I entered the crossing, a vehicle coming from the cross street struck the side of my car. I heard a loud bang and felt the impact push my vehicle sideways. I braked immediately, but there was no time to avoid the collision. Both cars came to rest in the intersection. I got out and noticed stiffness and pain in my neck and upper back almost right away. Later I was diagnosed with whiplash and have been following my doctor's advice about rest and physical therapy. The other driver and I exchanged insurance information at the scene, and I took photographs of the damage to both vehicles and the intersection.
