Description of the accident (claimant's words)

I was making a left turn at an intersection in Houston, Texas, when a vehicle coming from the opposite direction struck the front driver's side of my car. I had slowed down, signaled, and was waiting for a gap in traffic when the impact occurred. The force of the collision pushed my car sideways and I felt a sharp jolt through my back and neck. I stayed in my seat until emergency responders arrived and checked the scene. Afterward I noticed a strain in my lower back that made it painful to sit or stand for long periods. My doctor has recommended rest, physical therapy, and limited lifting while I recover. I am providing this account so that the details of how the collision happened are recorded accurately for my claim.
