Description of the accident (claimant's words)

I was driving in the right lane on the highway in Conroe, Texas, when traffic slowed ahead of me. I checked my mirror, signaled, and began moving into the left lane. As I drifted over, a vehicle in that lane moved toward me, and the two cars sideswiped each other. I felt a hard jolt, and my car scraped along the driver's side while I tried to keep steering straight. Both vehicles pulled onto the shoulder once traffic allowed. The other driver and I exchanged insurance and contact information, and I took photos of the damage to both cars and the surrounding road. Since the collision, I have had stiffness and pain in my neck, which I believe is a neck strain from the impact. I went to a clinic to have it checked and I am following the treatment advice I was given.
