Q: Thank you for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on a recording, but I can tell you I was the driver of the blue sedan involved in the collision.

Q: That's fine. Can you describe where the collision happened?

A: It was in a parking lot at a shopping center in Katy, Texas. I was pulling out of a space near the main entrance when the other vehicle came down the lane.

Q: How fast were you moving when you began to pull out?

A: Maybe a couple of miles an hour. I was backing out slowly. I looked over my shoulder but the other car was already close.

Q: Did you see the other vehicle before impact?

A: Only at the last second. It was a dark SUV and it didn't seem to be slowing down.

Q: What part of your vehicle was struck?

A: The rear driver's side door and quarter panel. My head hit the window frame when we jolted.

Q: Did you seek medical attention after the collision?

A: Yes, I went to urgent care that afternoon. They said I have a concussion. I've had headaches, dizziness, and I'm sensitive to light.

Q: Are you still experiencing those symptoms?

A: Some of them, yes. My doctor has me resting from screens and I'm not driving much right now.

Q: Is there anything else you would like to add about how the accident happened?

A: Only that I'm sure the other driver was going too fast for the lot. I've been careful my whole life, and this has really disrupted my work.

Q: Thank you. We will follow up with any documentation you can provide, inlcuding your medical records.

A: Okay, I'll get those to you.
