Reported injury:	whiplash

Description of the accident (claimant's words)

I was turning left at an intersection in Katy, Texas, waiting for a gap in oncoming traffic, when a vehicle coming from the opposite direction struck the frnot driver's side of my car. The impact was sudden and forceful. My airbags did not deploy, but my head snapped forward and back, and I felt immediate stiffness and pain in my neck and upper shoulders. I stayed at the scene until the other driver and I exchanged information and a report was made. I was taken to be checked out and was diagnosed with whiplash. I have been following my doctor's instructions, including rest, a soft collar, and physical therapy, and I am still experiencing neck pain and limited range of motion. I am submitting this statement so the damage to my vehicle and my medical treatment can be consideerd under my claim.
