Initial contact made by phone; claimant is cooperative and has provided basic incident details.

06/11/2025 - Obtained the police report from the responding agency. It notes both drivers gave conflicting accounts of the signal phase. Scene photos show damage concentrated on the claimant's driver door and the insured's front bumper. Traffic camera request submitted to the municipality, response pending. Recorded Statement

Claim number:	C-1049
Statement of:	David Krueger
Taken by:	Valerie Rodriguez
Date:	06/07/2025

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not put my full name on it yet, if that's all right. I can confirm I was the passenger in the vehicle.

Q: That's fine for now. Can you describe where the collision happened?

A: It was at an intersection in Katy, Texas. We were heading through on a green light when a car came in from the side and hit the passenger door.

Q: Do you recall which direction the other vehicle was traveling?

A: It came from our right. I didn't see it coming, so I can't say how fast it was going.

Q: Were you wearing a seatbelt at the time?

A: Yes, I was belted in.

Q: Did you hit your head during the impact?

A: I think I hit the window or the pillar. Right after, I was dizzy and had a bad headache. I didn't lose consciousness, but I was confused for a while.

Q: Have you sought medical treatment since the accident?

A: Yes, I was taken to the emergency room that day and they diagnosed a concussion. I've been told to rest and avoid screens as much as I can.

Q: Are you still experiencing symptoms?

A: Yes. The headaches come and go, and I get tired faster than usual. Bright light bothers me, and I've had trouble concentrating at work.

Q: Is there anything else you'd like to add to this statement?

A: Only that I'm still following up with my doctor, and I'll send over the records once I have them.

Q: Thank you. This concludes the statement.

A: Thank you.
