Description of the accident (claimant's words)

I was driving north on the feeder road, moving into the right lane to exit, when a silver sedan in my blind spot moved over and clipped the rear quarter panel of my vehicle. I felt a hard jolt, and my car drifted toward the curb before I could correct it. I pulled onto the shoulder and turned on my hazard lights. The other driver stopped a few car lengths ahead and got out to check on me. My head struck the side window during the impact, and within an hour I had a throbbing headache, nausea, and trouble focusing on my phone screen. I was evlauated at a local emergency department and diagnosed with a concussion. I have been advised to rest and avoid screens and strenuous activity until cleared by my doctor. I am submitting this statement with photos of the damage and the police report number.
