Description of the accident (claimant's words)

I was backing out of a parking space at a grocery store in Houston, Texas, moving slowly with my mirrors checked. As I reversed, a silver sedan came down the aisle much faster than I expected and struck the rear passenger side of my vehicle. The impact was not severe, but my head hit the side window hard. I felt dizzy and had a ringing sound in my ears, and I had a headache that got worse over the next hour. A store employee brought me water and called for help while I sat in my car. I was taken to an urgent care clinic, where I was diagnosed with a concussion and advised to rest and avoid screens for several days. I am still experiencing light sensitivity and fatigue. I did not see the other driver clearly before the collision, and I have included photos of both vehicles and the parking lot layout with this report.
