Description of the accident (claimant's words)

I was driving slowly through an intersection in Pasadena, Texas, when the car in front of me stopped suddenly. I was following at a safe distance, but the vehicle coming toward me on my side of the road swerved and struck the front of my car head-on. Both cars were moving at low speed, but the impact was hard enough that my head hit the steering wheel and then the window frame. I felt dizzy, had a ringing sound in my ears, and was confused for several minutes afterward. Paramedics checked me at the scene and I was taken to a nearby hospital, where I was diagnosed with a concussion. I have been advised to rest, avoid screens for long periods, and follow up with my doctor. I am still experiencing headaches and fatigue, and I have had to take time away from work. I am providing this account so my claim can be processed.
