Reported injury:	neck and back strain

Description of the accident (claimant's words)

I was making a left turn at an intersection in Sugar Land, Texas, when my vehicle was struck by another car coming through from the opposite direction. The impact happened while I was turning and I was moving slowly, so I was able to brake before the collsiion got worse. The other driver did not appear to stop in time and their front end hit the driver's side of my vehicle. I was shaken up and stayed at the scene unitl the police arrived and took a report. Afterward I noticed stiffness and pain in my neck and lower back, which I think came from the force of the impact and the sudden jolt of the seatbelt. I have since sought medical attention for tehse strains and am following the treatment plan recommended by my doctor. I am providing this account so the claim can be reviewed accurately.
