Description of the accident (claimant's words)

I was backing out of a parking space at a shopping center in Sugar Land, Texas, moving slowly with my mirrors checked. I felt a bump and stopped right away. When I got out, I saw that the back corner of my vehicle had made contact with the front bumper of a parked SUV whose driver had just pulled into the next row. There was no major damage to either car, just scuffed paint and a cracked tail light on mine. Shortly after, I developed a headache, nausea, and trouble focusing on the screen of my phone. I went to an urgent care clinic, where I was diagnosed with a concussion and avdised to rest and avoid screens for several days. I have attached the medical paperwork and photos of both vehicles for your review.
