### Officer's narrative

Officer narrative: On arrival at the intersection in Conroe, Texas, I observed a side-impact collision between two passegner vehicles. Driver 1 was operating a silver sedan northbound and enteerd the intersection as Driver 2, traveling westbound in a blue SUV, proceeded into the driver's side of the sedan. Both vehicles sustained heavy damage to the affected sides, and both were towed from the scene. Driver 1 was seated in the vehicle when I arrived and reported pain in the lower back, stating the impact pushed the driver's seat sideways and that the seatbelt tightened across the torso. Driver 1 declined immediate transport but agreed to be evaluated by EMS at the scene. A Passenger in the rear seat of the sedan reported no injury. Driver 2 stated the light had been green. Traffic signal timing and nearby witness statements were requested for follow-up. Citations are pending review of the scene evidence.
