Description of the accident (claimant's words)

I was making a left turn at an intersection in Houston, Texas, when a vehicle coming from the opposite direction struck the front driver's side of my car. I had been waiting for a gap in traffic and had my turn signal on. The impact was hard enough to snap my head against the window frame and set off the airbags. I was dazed for several minutes afterward and could not remember exactly what had happneed right before the collision. A bystander helped me out of the car and stayed with me until the paramedics arrived. I was taken to the hospital, where I was diagnosed with a concussion and told to rest and avoid screens and bright light. I still get headaches and feel foggy when I am tired. I am writing this statement to describe the accident as accurately as I can remember it.
