Description of the accident (claimant's words)

I was backing out of a parking space at a shopping center in Pearland, Texas, moving slowly with my mirrors checked. As I reversed, the rear corner of my vehicle struck the side of a silver sedan that was passing behind me in the aisle. The impact was low speed, but both vehicles were stopped for a moment while the other driver and I exchanged information and photographed the damage. Neither of us was hurt badly enough to need an ambulance at the scene. Over the following day I developed stiffness in my neck and a dull ache across my lower back, which has limited my sleep and my ability to lift items at work. I have since started physical therapy and wanted to report the injuries promptly so the claim can be documented accurately.
