Description of the accident (claimant's words)

I was backing out of a parking space at a grocery store in Baytown, Texas, moving slowly with my mirrors checked, when my rear bumper struck the front quarter panel of a vehicle that was passing behind me. I had not seen it approach because the view past my rear window was blocked by a tall cart corral. Neither of us was going fast, and both cars stopped right away. I got out to exchange information with the other driver, and the damage to my car was mostly a cracked taillight and a dented bumper cover. Later that evening I started to feel stiffness and sharp pain in my neck and upper back, and by the next morning I had headaches and trouble turning my head. I went to urgent care, was diagnosed with whiplash, and have been following the treatment plan since then.
