Description of the accident (claimant's words)

I was driving north on the main road and approached the intersection on a green light. As I entered the crossing, a vehicle coming from my right ran the red signal and struck the driver's side of my car. The impact pushed my vehicle sideways and I felt my body jolt against the seatbelt. I brought the car to a stop at the curb and stayed in the driver's seat for a few minutes while I chekced myself and the scene. The other driver stopped as well, and we exchanged insurance details and photographs of both vehicles. Later that day I developed pain in my lower back that has limited my movement and sleep. I have since sought medical evaluation for a back strain and am following the treatment plan my doctor recommended.
