Description of the accident (claimant's words)

I was driving in the right lane on a busy road in Baytown, Texas, when traffic slowed ahead of me. I checked my mirror, signaled, and began moving into the left lane. As I moved over, I felt a hard jolt on the driver's side of my car. The other vehicle had been in my blind spot and had come up alongside me as I changed lanes. Both cars scraped along each other before I could steer away and stop on the shoulder. Neither of us was seriously speeding, and traffic was moving slowly at the time. I got out and exchanged information with the other driver, and we took photos of both vehicles and the damage. Later that evening I started feeling stiffness and pain in my neck and upper back, which I later learned was consistent with whiplash. I am writing this statement so the details of what happened are recorded accurately.
