Description of the accident (claimant's words)

I was stopped at a red light on the access road in Sugar Land, Texas, waiting to turn left, when I felt a hard jolt from behind. The vehicle that hit me was traveling too fast for the stop, and I could not avoid the impact because my foot was still on the brake. My car was pushed forward into the intersection and the airbags deployed. I was dazed for a few minutes before I could get out. My right wrist struck the steering wheel and I felt immediate pain and swelling. The other driver stayed at the scene and exchanged insurance information with me. A police officer arrived, took statements, and noted the rear-end impact in the report. Paramedcis checked me on site, and I was later taken to urgent care, where an X-ray confirmed a fractured wrist. I have attached the report and medical paperwork for your review.
