Description of the accident (claimant's words)

I was backing my car out of a space near the north entrance of the parking lot in Conroe, Texas, moving slowly with my mirrors checked. A pickup truck coming down the lane struck the rear passenger side of my vehicle. I did not see it approaching because the truck was partly hidden behind a row of parked SUVs. I braked immediately after feeling the impact, and both vehicles stopped without further movement. Other drivers and a store employee came over to check on everyone. When I tried to steady myself against the door frame, I landed awkwardly on my left wrist and felt a sharp pain right away. I was taken to an urgent care clinic, where an X-ray showed a fracture. The wrist is now in a splint, and I have been told I will need follow-up care. I am providing this account as accurately as I can recall it.
