Officer's narrative

Officer narrative: On arrival at the scene of the reported two-vehicle collision in Houston, Texas, I observed a sideswipe collision between two passenger vehicles stopped partially in the right and center lanes of the roadway. Driver 1 stated that they were changing lanes to the left when the vehicle operated by Driver 2 moved into the same lane and made contact with the left rear quarter panel of Driver 1's vehicle. Driver 2 stated that they did not see Driver 1's vehicle before the lane change and attributed the contact to a late observation of the adjacent traffic. A Passenger seated in the front right position of Driver 1's vehicle was also evaluated at the scene. Driver 1 reported a headache, dizziness, and confusion following the impact and was advised of the signs of concussion and the need for prompt medical evaluation. Emergency medical services were notified and transported Driver 1 for further evaluation. Both vehicles sustained visible damage and were moved from the travel lanes. Traffic flow was restored after the scene was cleared.
