Description of the accident (claimant's words)

I was driving north on the highway in the right lane when I checked my mirror and signaled to move into the left lane. As I began to merge, a silver sedan in that lane came up quickly on my left side, and we sideswiped each other. I heard a loud scrape and felt my car shift toward the center divider. I managed to steer back into my lane and pull onto the shoulder. Both vehicles had damage along the left side, and I could see scrape marks on my door panel and mirror. The other driver stopped a short distance ahead, and we exchanged insurance and contact information. I got out to check on my car and tried to brace myself on the door frame, which is when I felt sharp pain in my left wrist. I was later evaluated and told the wrist was fractured. I am submitting this statement with photos of the damage and the police report number.
