Officer's narrative

Officer's narrative: On arrival at the intersection in Baytown, Texas, I observed a side-impact collision between two passenger vehicles. Driver 1 was operating a silver sedan northbound and entered the intersection when the signal showed green. Driver 2 was operating a white SUV westbound and failed to yield the right-of-way, striking the passenger side of Driver 1's vehicle. A Passenger was seated in the front right seat of Driver 1's vehicle. Driver 1 stated that they felt immediate pain in the lower back and neck following the impact and asked to be evaluated. Driver 2 stated the signal had been yellow. Both vehicles sustained heavy damage to their driver-side and passenger-side doors respectively and were not drivable. Skid marks were visible from the westbound lane. Paramedics were called to the scene and transported Driver 1 for further evaluation. Traffic was diverted until the vehicles were cleared.
