Description of the accident (claimant's words)

I was driving my sedan east on the main road in Sugar Land, Texas, intending to turn left into the shopping center entrance. The intersection had a green light when I started my turn. As I crossed into the oncoming lane, a pickup truck coming straight through the intersection sturck the driver's side of my vehicle. I braked immediately but could not avoid the impact. Both cars were damaged, and the airbags deployed in my car. The other driver stopped and we exchanged insurance information. I felt pain in my right shoulder right away and was unable to move my arm comfortably. I went to urgent care that afternoon, where I was told the shoulder was strained and I should follow up with my own doctor. I am still receiving treatment and have stopped working on tasks that require lifting.
