Description of the accident (claimant's words)

I was making a left turn at an intersection in Pasadena, Texas, when a vehicle coming from the opposite direction struck the front driver's side of my car. I had been waiting for a gap in traffic and had my turn signal on before I started to move. The impact pushed my car sideways and the airbags deployed. I was not able to see the other vehicle until it was almost on top of me, because the afternoon sun was glaring off the windshield. After the collsiion I got out and noticed that my left knee was swollen and painful, and I could not put full weight on it without difficulty. I was taken to an urgent care clinic by a family member, where I was examined and given an X-ray. I am reporting this incident so that the claim can be processed and my medical treatment can be covered.
