Description of the accident (claimant's words)

I was stopped at the red light on FM 518 in Pearland, Texas, waiting to turn left, when I felt a hard jolt from behind. The impact pushed my car forward into the intersection and my head snapped back against the headrest. The other driver had been looking at a phone and didn't brake in time. We both pulled into the parking lot of a nearby shopping center, exchanged insurance information, and took photos of both vehicles. My rear bumper is cracked and the trunk won't latch properly. Since the collision I have had stiffness in my neck and a dull ache across my lower back that gets worse when I sit for long periods. I went to an urgent care clinic that afternoon, where I was diagnosed with a neck and back strain and given a prescription for muscle relaxers and instructions to rest and follow up with my doctor.
