Description of the accident (claimant's words)

I was making a left turn at an intersection in Conroe, Texas, when another vehicle struck the side of my car. I had the green light and was proceeding slowly into the turn when the otehr driver came through the intersection and hit my vehicle. The impact pushed my car sideways and I felt my head and neck snap forward and back. My shoulders and lower back tightened right away. I stayed at the scene until the police arrived and gave them my statement. The other driver admitted at the scene that they had not seen my car before the collision. I have since been experiencing neck and back strain and stiffness, and I have started physical therapy. I am submitting this claim to cover my vehicle repairs and medical treatment.
