Description of the accident (claimant's words)

I was driving north on the frontage road in Pearland, Texas, and signaled before moving into the lane on my left. As I began to change lanes, a dark pickup truck that had been in my blind spot drifted over and sideswiped the passenger side of my vehicle. I heard a loud scrape and felt the steering wheel jerk. My car pushed toward the median, and I braked hard to avoid losing control. The other driver did not stop right away, but pulled onto the shoulder a short distance ahead. I was shaken and struck my head against the window frame on impact. Within an hour I had a headache, nausea, and trouble focusing on lights, and I was later diagnosed with a concussion. I have included photos of the damage and a copy of the police report.
