Description of the accident (claimant's words)

I was driving in the right lane on the access road in Baytown, Texas, when I signaled and began moving left to change lanes. As I drifted over, a silver sedan in the left lane came up beside me and its side struck the passenger side of my vehicle. Neither car was able to fully avoid contact. I pulled onto the shoulder right away and turned on my hazard lights. My car sustained scrapes and a dented rear door panel. The impact threw me against the steering wheel and I caught myself with my right arm, which left me with a sharp pain in my wrist. I was taken by ambulance to the nearest hospital, where X-rays showed a fractured wrist. I have since been placed in a cast and am following up with my doctor. I am providing this statement so the claim can be processed as soon as possible.
