Re: Claim C-1185 - Demand for settlement

Dear Claims Representative:

This letter concerns the injuries sustained by our client, Stacy Andrews, in a motor vehicle collision that occurred on 10/13/2024. Our client was lawfully operating a vehicle when another vehicle crossed into the client's lane and struck it head-on. Although the impact occurred at a low rate of speed, the force transmitted through the vehicle was sufficient to cause a significant whiplash injury to the client's neck and upper back.

Following the collision, our client sought prompt medical evaluation and has since undergone a course of treatment that includes physical therapy and ongoing chiropractic care. Our client continues to experience neck stiffness, headaches, and limited range of motion, which have interfered with work duties and daily activities. Medical records documenting diagnosis, treatment, and associated charges are enclosed for your review.

The available evidence shows that your insured bears responsibility for this collision. Liability should not be in dispute, and we ask that your company evaluate this claim in good faith.

Our client is prepared to resolve this matter without litigation. We therefore demand payment of $61,000.00 to settle all claims arising from this accident. This offer will remain open for thirty days from the date of this letter. If it is not accepted within that time, we will file suit without further notice.
