Description of the accident (claimant's words)

I was making a left turn at an intersection in Baytown, Texas, when another vehicle came through the intersection and struck the side of my car. I had already started into the turn and was moving slowly, so I did not see the other car until the impact. My vehicle was pushed partway into the lane and came to a stop. The airbags did not deploy, but I felt a sharp jolt through my neck and shoulders. I was able to get out of the car on my own, and I exchanged information with the other driver and waited for the police to arrive. Since the accident, I have been experiencing neck pain and stiffness, and my doctor has diagnosed me with a neck strain. I am filing this claim to cover my medical care and the repair of my vehicle.
