Description of the accident (claimant's words)

I was making a left turn at a green-light intersection in Pearland, Texas, and had almost cleared the oncoming lanes when another vehicle came through from the opposite direction and struck the front passenger side of my car. I had been moving slowly and believe I had the right of way on the turn. The impact pushed my car sideways and my head snapped forward and then back against the headrest. I stayed at the scene until the police report was completed and the other driver's information was exchanged. Afterward I noticed stiffness and pain in my neck that has made it hard to turn my head and sleep through the night. I was evaluated by a medical provider and was told I have a neck strain. I am submitting this statement so the claim can be reviewed and my mdeical treatment documented.
