Description of the accident (claimant's words)

I was driving north on the main road in Pasadena, Texas, at a low speed, approaching the intersection where traffic had slowed. The vehicle coming toward me crossed into my lane while attempting a turn, and despite my braking, we collided head-on. The impact was not severe, but both airbags in my vehicle deployed and my knee struck the lower dashboard. I felt immediate pain and stiffness in my right knee and was unable to bear weight comfortably. Emergency responders arrived within a few minutes, chekced me at the scene, and recommended that I be evaluated at a medical facility. I have been experiencing swelling and limited range of motion since the collision and am currently following medical advice for treatment. I am providing this account to document the circumstances as accurately as I can recall them.
