Description of the accident (claimant's words)

I was driving east through the intersection on a green light when a vehicle coming from the cross street ran its red and struck the driver's side of my car. The impact spun my vehicle partway around and pushed it toward the curb. I was wearing my seatbelt, and the airbags on my side deployed. I stayed at the scene until the responding officer arrived and gave my statement. Afterward I felt stiffness and sharp pain in my neck and lower back, which has made it hard to turn my head and sit for long periods. I have since started physical therapy and am following my doctor's recommendations. I am providing this account so the claim can be reviewed promptly and the damage to my vehicle and my medical care can be properly addressed.
