| **Reported injury:** | concussion |

### Description of the accident (claimant's words)

I was driving north on the frontage road in Pearland, Texas, and needed to move into the left lane to make my exit. I checked my mirror and signaled, and as I began to change lanes, a vehicle in that lane moved over and sideswiped the passenger side of my car. The impact pushed my car toward the median, and I heard a loud scrape along the door panels. I pluled onto the shoulder and turned on my hazard lights. My head struck the side window during the collision, and afterward I felt dizzy, had a headache, and felt confused for several minutes. A passerby called for help, and I was taken to the emergency room, where I was diagnosed with a concussion. I am still experiencing headaches and light sensitivity, and I have been advised to rest and avoid screens for the time being.
