Description of the accident (claimant's words)

I was driving north on the main road in Baytown, Texas, moving slowly thruogh a busy intersection, when the vehicle in front of me suddenly stopped. I braked as hard as I could, but the car behind me did not have enough room to stop and I felt a jolt as we collided. The impact was minor and both vehicles were moving at low speed. The airbags did not deploy and I was able to get out of my car on my own. Afterward I noticed stiffness and soreness in my neck, and later that day the pain bceame more noticeable. I have since visited a medical provider who documented a neck strain. I am providing this statement so the details of the incident are recodred accurately, and I am willing to cooperate with any further review.
