Montgomery County District Court

Cause No. 2026-CV-0020

Jose Reynolds, Plaintiff, v. Harbor Point Mutual Auto Insurance, Defendant

Oral Deposition of Jose Reynolds

Date:	April 3, 2026
Location:	Offices of Morris & Miller LLP
Examining attorney:	Stephanie Williams, Ashford & Lyle LLP
Defending attorney:	Michael Bolton, Morris & Miller LLP

Q: Please state your full name for the record.

A: I'd rather not give my full name on the record yet. My attorney said we could handle identifying information separately.

Q: That's fine for now. Where were you on the day of the collision?

A: I was driving on the frontage road near Pasadena, Texas, heading toward my office. It was a weekday afternoon and traffic was moderate.

Q: Describe what happeend immediately before the impact.

A: I was in the left lane and I was about to merge over to the right lane to make my exit. I checked my mirror, I saw the lane was clear, and I signaled. Then the other vehicle came up beside me and clipped my driver's side, right behind my front wheel.

Q: Did the other driver signal before changing lanes?

A: I didn't see a signal. I only heard a loud scrape and then felt my car pushed toward the curb.

Q: Did you hit your head at any point?

A: Yes. My head struck the driver's side window hard enough to crack the glass. I remember my ears ringing and everything looked a little blurry.

Q: What did you do after the collision?

A: I pulled onto the shoulder and sat there for a while. I felt dizzy and nauseated, and I couldn't focus on my phone when I tried to call someone. An ambulance came after a few minutes.

Q: When did you first seek medical treatment?

A: I went to the emergency room that same day. They did a CT scan and told me I had a concussion. They sent me home with instructions to rest.

Q: What treatment have you received since then?

A: I've seen my primary care doctor several times and I've been referred to a neurologist. I also started physical therapy for my neck and balance problems. I had to stop going to the gym for a while because the doctor told me to avoid anything that made me feel worse.

Q: How has the injury affected your daily life?

A: It's been hard. I get headaches most afternoons, and bright screens bother me. I used to read a lot and now I can only manage a few pages before my eyes feel tired. I've had to leave work early on some days, and my supervisor has been understanding but I know my productivity has dropped.

Q: Have you had any problmes sleeping?

A: Yes. I have trouble falling asleep and I wake up several times a night. Before the accident I rarely had any sleep issues at all.

Q: Do you have any problems with memory or concentration?

A: Sometimes I lose my train of thought in the middle of a conversation. I write everything down now because I'm afraid I'll forget appointments.
