Description of the accident (claimant's words)

I was driving north on Broadway when the car coming from my left ran the red light at the intersection and struck the driver's side of my vehicle. I had the green light and was moving at a normal speed when the impact happened. My car spun slightly and the airbags deployed. The other driver stopped at the scene, and we exchanged insurance information while a police officer took the report. I was able to get out of my vehicle on my own, but I felt immediate stiffness and pain in my neck and lower back. I went to an urgent care clinic that evening, where I was told I had a neck and back strain and was advised to rest and follow up with my doctor. I have been experiencing soreness and limited movement since the accident and am continuing treatment.
