Description of the accident (claimant's words)

I was backing out of a parking sapce at a grocery store in Houston, Texas, moving slowly with my mirrors checked, when my rear bumper struck the side of a vehicle that was passing behind me. I had not seen it coming because the other car came in from an angle between parked rows. I stopped immediately, got out to look at both vehicles, and saw damage to my rear bumper and the other car's driver-side door. No one was in the other vehicle at the time of contact. Shortly after the collision I began to feel stiffness and pain in my neck and lower back. I went to an urgent care clinic that evening, where I was examined and diagnosed with a neck and back strain. I am still undergoing treatment and have been advised to limit lifting and driving while the symptoms settle.
