Description of the accident (claimant's words)

I was driving north on the main road in League City, Texas, and signaled before moving into the left lane. As I began to merge, a vehicle in that lane came up alongside me and its right side scraped along the left side of my car. I felt a hard jolt and steered back into my own lane to avoid a worse collision. Both cars pulled to the shoulder, and the other dirver and I exchanged information and took photos of the damage. My car has a long scrape along the rear passneger door and quarter panel. I was not able to turn my head properly for several days afterward and later was diagnosed with whiplash. I have been attending physical therapy and am still experiencing neck stiffness and headaches when I drive for long periods.
