Description of the accident (claimant's words)

I was backing out of a parking space at a grocery store in Pasadena, Texas, moving slowly with my brake lights on, when my rear bumper struck the front qurater panel of a silver sedan that was passing behind me. I had checked my mirrors, but the other vehicle came into the lane faster than I expected and I did not see it in time. Both cars stopped right away, and I got out to look at the damage. My neck and upper back began to ache within an hour, and by the next morning I had stiffness and pain when turning my head. I went to an urgent care clinic that same day, where I was told I had whiplash. I am currently following the treatment plan my doctor recommended and am limited in lifting and driving for now. I am providing this statement in good faith and believe it to be accurate.
