Description of the accident (claimant's words)

I was driving north on the main road and approached the intersection on a green light. I had slowed as I got closer and was checking for cross traffic when a vehicle coming from the left ran the red signal and struck the driver's side of my car. The impact pushed my vehicle sideways and I felt my head snap to the right and then back. The airbags did not deploy, but my car was undrivable and had to be towed from the scene. I stayed in my seat until the other driver came over to check on me, and I exchanged insurance information with them. Later that day I began experiencing stiffness and pain in my neck, along with headaches. I have since been seen by a physician, who diagnosed a neck strain and recommended rest, medication, and physical therapy.
