Description of the accident (claimant's words)

I was driving westbound on a residential street in Pasadena, Texas, at a slow speed, when the car in front of me stopped suddenly. I was following at a safe distance but the vehicle ahead had reversed unexpectedly, and I was unable to avoid contact. The other driver pulled into my lane while attempting to turn around, and our front bumpers met in a low-speed head-on impact. Both vehicles were drivable after the collision, though the front ends of both cars sustained visible damage. I felt an immediate jolt through my neck and shoulders. Over the following day I developed stiffness and pain consistent with whiplash, and I sought medical evaluatoin the same evening. I have photographs of the scene and both vehicles, and I exchanged insurance information with the other driver at the roadside. I am providing this statement so that the claim can be processed accurately.
